## ABOUT SONNEMAN - A WAY OF LIGHT

As the American leader of sophisticated contemporary lighting, SONNEMAN – A Way of Light enjoys a reputation for exemplifying the best in Modern design.

Robert Sonneman, “Lighting’s Modern Master,” pioneered Modern lighting in the 1960s and ‘70s, making it an art form. Acclaimed for clean lines and his alliance to form and function, he has been at the forefront of Modern design for five decades. Many of his award-winning designs have become classics of the Modern era.

Sonneman’s approach to design is inspired by the compelling logic of a good idea well executed, with simplicity and clarity of purpose. His designs extend through the Modern architectural and decorative genres of the 20th Century and forward to the contemporary diversity of the 21st.

The company’s design and marketing activities are based in Larchmont, NY. SONNEMAN products are distributed throughout the United States and internationally. Distribution is through lighting showroom and e-commerce partners, as well as through design specification and commercial and hospitality projects.

A WAY OF LIGHT

cubix™  
*modular architectural illumination*

Cubix brings scalability, volume, and constructive interest to architectural illumination. Arrayed in precisely interconnected relationships, these suspended cubes are joined to each other by a shared leg on each frame.

SONNEMAN™  
A WAY OF LIGHT

## coral surface™

Flowing sculptural shapes connect clusters of luminaires across wall or ceiling surfaces in this organically modern system of light.

## purolinear 360™

Purolinear 360 can transition between wall and ceiling mounting using corner connectors, as shown, providing an unbroken path of directable linear illumination throughout a space. Light can be directed in 360 degrees of rotation around its axis.

SONNEMAN  
A WAY OF LIGHT

parisone™

## meclisse™

Circular medallions shield an LED illuminated core, reflecting dazzling illumination through the planes of a ribbed glass disc. Suspended from lariats as singles or clustered in multiples, Meclisse pendants rotate freely to form stunning arrays of spectacular arrangements.

friso™

## multi-forms

SONNEMAN  
A WAY OF LIGHT

## backgate™

Rolling one edge of the wall plate over forms the illumination cavity and allows directional light to graze and reflect across the face of the plate. The intersecting offset plane is commentary on the sculptural industrial aesthetic.
